NARROW PRICE CHANGES

VOLUME OF BUSINESS, HOWEVER, 18 SURPRISINGLY LARGE.

Discussion of the Monetary Outlook-Stock Market Conditions-The Local Business Situation.

At New York Saturday money on call was

Prime mercantile paper, 5@6 per cent. Sterling exchange was easy, with actual business in bankers' bills at \$4.84@4.84% for demand, and \$4.81@4.81% for sixty days; posted rates, 24.82@4.82% and \$4.85%; commercial bills, \$4.80%

Silver certificates were 64%@65%c; par silver, 64%c; Mexican dollars, 50%c. At London silver bars rose to 29%d an ounce. Exports of gold and silver from the port of New York to all countries for this week ag-

gregate \$1,243,691 in silver bars and coin and Imports of specie were \$493,729 in gold and

\$33,212 in silver. Imports of dry goods and merchandise were valued at \$8,313,397. The weekly statement of the associated New York banks, issued Saturday, shows the fol-

lowing changes; Circulation, increase Legal tenders, decrease..... 1,700,200

deserve, decrease 5,305,200 Surplus reserve, decrease...... 1,516,225 The banks now hold \$2,947,700 in excess of the

The Financier says: "The statement of the New York associated banks for the week ended Oct. 20, taking everything into consideration. was of a favorable character. The clearing institutions, despite the drain of \$5,305,200 cash from their already depleted holdings, managed to minimize the effect of the reduction by a radical contraction in loans, which operated to reduce deposits and therefore released the percentage of cash heretofore locked up as reserve. In brief, the present volume of deposits calls for nearly \$3,800,000 less cash reserve than at the close of the previous week, and as the actual Linois cash outgo was, as stated, \$5,305,200, the surplus | Icwa Central s reduced only \$1.516,225, leaving the excess still held above the legal requirements \$2,947,700. It is usually calculated that all the banks are are not compelled to do so, although they usually the possibility of the banks having to resort to receipts of specie, both from Europe and the Pacific coast, will foot up nearly \$10,000,000 before treasury is loaning money to the banks, so that cir gains will be much above the outgo. At e same time it cannot be said that rates on cans will respond instantly to these factors. The contraction of ten millions in loans in the Rio Grande Western pref be changing the policy of the banks in any re-The decrease of sixty-one millions in deposits since the middle of September is to

Circulation is still expanding and is now well

above all previous records, standing at about

WALL STREET REVIEW. The tentative opposition which has been offered to the upward course of prices for two days past, by a considerable bearish element of professional traders, was wholly abandoned Saturday, and prices moved upwards without important exception and almost without interthe dealings, the movement of prices of the majority of stocks was surprisingly small. The large and eager demand from outside sources was, in fact, pretty steadily fed by the pro- American Cotton Oil pref essional operators, who were taking profits. But the undertone of firmness was shown by the prompt drain in the offerings when there was the slightest yielding in prices. There were a few stocks also in which there were striking upward movements, notably in the steel and iron group. American Hoop was the leader and was strong from the outset. Federal Steel encountered opposition to the advance in the early but ultimately became very bouyant n tone. The whole group came into the movement under this leadership and advanced from to 31/2, the latter figure for American Hoop. This movement was an essential factor in the ouyant tone of the whole market at the close. Pacific Mail was marked up 3 points without any news to account for the rise. The buying was attributed to the hopes of benefit to the prop-erty from the passage of a ship subsidy bill at the coming session of Congress. A bank statement, which reports a decline in surplus reserves of \$1,516,225, in spite of a loan contraction of over \$10,000,000, would precipitate an effective ear attack on prices in any ordinary market, out the large loss in reserves, which reached 5,535,000, was offset by other considerations and by the conviction that the showing was due to the vagaries of the average system of nputation. Last Saturday's statement, it will embered, fatled to show the known moveat of money to the interior by over \$3,000,000. aturday's statement is believed to overstate the real loss by at least as much as the previous natement understated it. It is evident, also, that the week's receipts of gold came too late to affect the showing, and will have a resulting arger effect on next week's showing. The midweek receipts were supplemented by \$1,200,000 which arrived from Europe Friday and Saturday, and by \$4,800,000 sovereigns which arrived at San Prancisco from Australia Friday. Additional Standard Rope and Twine ld are in sight, an more of the European gold will come in next week. Hence the noneffect on sentiment of the poor surface showing by the banks. The large can contraction is explainable, in part at least, by the fact already pointed out in these dispatches, that the trust companies have been the ective lenders in the busy week of the Stock Exchange and have drawn on their deposits with the banks, thus forcing the calling of bond

The stock market during the past week has had the benefit of various factors, part of them technical in character, and part of them growing out of substantial improvement in financial ditions. The most important element in the advance is the forcing to cover of a large short interest. Professional operators in stocks, who are greatly prone to historical analogies, found nselves impressed with the recollection of what happened to the stock market at this time four years ago, and they argue that the present tendency to hold back from business engage ments until after election warranted the exsectation of a decline in prices before election such as occurred four years ago, but the sudden turn of circumstances towards relief from the eatened stringency in the New York money market gave opportunity for the watchful bull contingent in stocks to effect a turn in prices against their opponents, which drove them to cover in a somewhat disorderly and hasty manner. The powe ful and well organized bull party was aided in thus wringing profits out of the bears by the development of an outside buying nterest which attained notable proportions, and made itself felt to a degree also by investment buying of bonds. Last week's good bank statement and the large engagements of gold for import, which continued this week, gave general encouragement, and the hope was entertained that the crucial strain on the market had seen passed and that the resources would prove ufficient to meet the unexpected heavy demands This hope had additional warrant from the fallng off during the week in the interior demand for money and the larger supply of money secured by the operations with the subtreasury by reason of pension payments and the larger drafts payable against, gold deposits with the government at Pacific coast points. OTHER BULL FACTORS.

loans, and replacing them with loans on their

own account

The reports of improvement in the iron and steel trade, the settlement of the coal miners' strike and the fact that the average gross earnnes of railroads for the first week in October showed an increase again over last year, after those for the last week in September had fallen off, all helped to stimulate the bullish sentiment, But the bouyant rise in prices offered attractive profits to speculators who had held stocks during the long period of inertness and lethargy in the market. At the same time the closing out is a good demand for provisions, especially of large short interests took out of the market an important support to prices. Looking beyond | breakfast bacon and sides, which are scarce, the immediate present conditions in the money market, speculators saw some cause for renewed sion of high rates for money. Theree by the latter part of the week there was again a well-defined and influential bear party making Itself evident in the operations of the Stock Exchange. This party's efforts to work seclines were by no means unopposed, and the peculative conflict thus waged caused a very stied and irregular stock market until the activity that it sho neral upward movement of Friday. There were widely divergent movments in some of the minor stocks, but where a contest between n Union Pacific, the effect was seen in an asonishingly narrow price movement on an enorneuse volume of dealings.

There is much uncertainty among the best
uthorities regarding the further movement of
uthorities regarding the further movement of
old from abroad. The undoubted ability of ative interests centered in one stock, as

New York to force gold homeward, if necessary, tends to upset the European money markets. The financial world of New York as well as that of Parls has given abundant evidence of an appreciation of the reflex harm that may come from that. The recovery of sterling exchange in New York during the week has re-Inspections—Wheat: Rejected, 2 cars. Corn:
No. 2 white, 1 car; No. 3 white, 13; No. 4 white,
5, No. 3 white mixed, 1; No. 4 white mixed, 2;

This reovery was due in part to the demand from bankers to cover imports of gold and in part to the falling off in the supply of cotton bills. The reaction in the price of cotton has led to a reduced cash demand from foreigners, pending more settled conditions, but it has also led to reduced demands on New York from the South for currency. A renewal of the extraordinary demand for cotto would cause a resumption of Southern demand for currency. But the effect of the current demand for gold on London is feared. The current ease of money in London is called fictitious. due to the distribution of government credits.

The disquiet of the Bank of England authorities over the future is seen in their effort to stiffen rates by borrowing from the open market. In view of the strength of the financial position in France the large movement of gold from London to Paris during the week may possibly be In futherance of this policy of conserving money supplies for future requirements, as the Bank of France has recorded its determination to release its reserves for the avoidance of any money

crisis. The Imperial Bank of Germany has materially strengthened its position during the week, and has that far relieved the prospect. In the prospect of a considerable further movement of currency to the West, and the ex-pectation of any active demand for money for business which is waiting until after election, the assurances conveyed by the secretary of the treasury leave no ground to fear that government surplus revenue collections will be allowed to precipitate a money crisis. But future business requirements are felt to be sufficiently large to enjoin continued caution in encroaching on available credits for purely speculative pur-

Business in bonds has been considerably larger, and prices of many issues have advanced United States new fours advanced 1/2 and refunding twos and old fours 14 per cent, over the

LOCAL GRAIN AND PRODUCE.

A Good Week of Trade, with Very

The volume of business on the wholesale

streets in the week ended Oct. 20 was, in most

lines, highly satisfactory, with a strong, steady

tone to prices as a rule. Especially is this re-

mark true of dry goods and groceries. The

leather and hide markets are working into bet-

ter condition, but no change in prices has yet

been effected. Eggs are in active request at

prices quoted, and choice butter meets with

ready sale at quotations. The poultry market is

weak, on large receipts. Apples are firmer in

tone, and with this are improving in quality.

Cranberries have an advancing tendency. Irish

petatoes, if good stock, readily bring our quota-

tions. Sweet potatoes are steady. Cabbage is

firmer. Celery weak and inferior in quality.

Flour is weak, but not quotably changed. There

The demand for army use is heavy, which

accounts for the strong position of these special

> Cash Sales Strengthened Corn-Oats Followed the Major Cereals-Little Change in Hog Products.

> CHICAGO, Oct. 20.-Unsettled weather in the Northwest was mainly responsible for a small advance in wheat to-day, December closing %c over yesterday. Corn closed 14c and oats 14c higher. Provisions at the close were unchanged

to 256c up. Aside from one or two moderate spurts of activity wheat was a quiet market throughout the curtailed Saturday session. Aside from rather heavy selling by a prominent buyer yesterday the market was without feature. Offerings were absorved by the local crowd. Sellers were influenced by lower cables, while the buying had as its motive unsettled weather in the Northwest, a better general demand for flour at Minneapolis and a report asserting that threefourths of the North Dakota crop had already been marketed and that the crop this season was "practically no good," many not getting their seed back. December opened 1/3c lower at 74%c to 74%@74%c, and sold to 74c, the first hour. Then the market gradually worked up to 74%@ 74%c and closed firm %c higher at 74%c. Cash sales here and at the seaboard were light. Heavy world's shipment figures and an increase in the visible are expected to be shown Monday. Seaboard clearances in wheat and flour cash, 41%c; December, 35%c. Oats dull and firm; were equal to 538,000 bu. Primary receipts aggregated 1,059,000 bu, compared with 1,617,000 bu cember, \$6.72%; March, \$6.65. last year. Minneapolis and Duluth reported 506 cars, against 486 last week and 715 a year ago. Local receipts were 193 cars, seven of which graded contract. Corn was moderately active and firm, the bull sinews of war coming mainly from a good cash demand, although steady cables and light country offerings were also items friendly to the price. There was good buying nearly all the session by commission houses, particularly those

erately, figuring that to-day's cash sales were additions to the heavy export business done yes-terday and the day before, both here and at the seaboard. Receipts were 526 cars. December sold between 35%c and 35%c, closing %c up at Oats were quiet but firm, helped by the wheat and corn strength, light country offerings and a a rospect of wet weather. Receipts were 263 cars. December sold between 21% @22c and 22%c, closing %c higher at 22%c. Provisions were quiet but firm. Hog receipts were light and prices at the yards higher. The cash demand was fair, but not quite as active at it has been recently. Packers, however, were buyers of lard and ribs for future delivery. That hog receipts were only 6,000 under those of the week previous, although prices have dipped 60 cents, is a consideration of a bearish tinge in the provision pit. January sold between \$11.40

with seaboard connections. Shorts covered mod-

and \$11.45 and closed unchanged at \$11.40; January lard between \$6.65 and \$6.70, closing 21/20 higher at \$6.67%, and January ribs between \$6.021/2 and \$6.05, with the close 21/2c up at \$6.021/2 @6.05. On one trade October pork dropped to Estimated receipts Monday: Wheat, 280 cars corn, 560 cars; oats, 300 cars; hogs, 33,000 head. Leading futures ranged as follows:

Notes of Recent Opinions. The right of a stockholder to inspect cinnati Volksblatt Company vs. Hoffmels-ter (O.) 48 L. R. A., 732, not to depend upon the motive or purpose of the stockholder. The right to use a gas pump to increase the production of an oil well is upheld, Common to fair cows and calves.....20.00@30.00 Hogs-Receipts, 1,200; shipments, 1,670. The in Jones v. Forest Oil Company (Pa.) 4 quality was only fair, there being a scarcity of L. R. A. 748, although it will reduce the good heavy weights. The market opened steady production of wells on adjoining property. to strong and trade was fairly active, as orders were liberal, and the light supply was soon sold. The bulk of the sales was made at \$4.65 to \$4.75 for best heavy mixed, with select heavy at \$4.80 to \$4.85. The closing was steady with all sold. Quotations: Railway cars owned by a foreign corporation which has no place of busines in the State, when leased to various shippers and used on trips in or through the State are held, in Union Refrigerator Transit Company v. Lynch (Utah) 48 L. R. A. 79 to have a situs within the State for the

purpose of taxation. A statute requiring railroad companies to issue 1,000-mile tickets at reduced prices is held in Purdy vs. Erie Railroad Com-pany (N. Y.) 48 L. R. A., 669, not to constiquality was fair. The market was steady to strong on all grades, closing steady with all tute a deprivation of the property of the law if the company has acquired its property rights and franchises after the statute

The lack of barriers on the side of approaches to a bridge are held in Bell vs. Wayne (Wash.) 48 L. R. A., 644, not sufficient to make a municipality liable for injuries in case a team goes off the bank when the roadway was wide enough for two teams to pass without difficulty and the fright of a horse was the proximate cause of the accident.

The right of passengers to carry with shade higher; common steady; native steers to-day, \$4.70@5.45; stockers and feeders, \$3.25@4.75; them small packages of merchandise is held, in Runyan vs. Central Railroad Com-\$3.50@5.10; Western feeders, \$3.50@4.25; Texans, pany (N. J.) 48 L. R. A., 744, to be one that s not given by the common law contract of carriage, and for which usage must Hogs-Receipts, 4,500. Market active; prices 216c higher. Receipts for the week, 53,000. The not only be clear and explicit, but also something more than mere accommodation acquiesced in for a time by the carrier. A statute requiring a county to pay a penalty of \$5,000 for the death of any permixed to-day \$4.60@4.721/2; light, \$4.55@4.70; pigs, on caused by lynching is held constitutional in Champaign County vs. Church (O.) 48 L. R. A., 738, against the contentrade all week. Slaughtering grades 25c to 40c tions that it violates the right of a trial by jury, takes property without due process

of law, exercises judicial functions by the Legislature and imposes taxes for unconstockers and feeders, \$3.25@4.70; culls, \$2.50@3.25. stitutional purposes. CHICAGO, Oct. 20 .- Cattle-Receipts, 600, Market nominally steady. Good to prime steers, The right of a city to discharge sewers into a river to the damage of riparian feeders, \$3.75@4.45; mixed stockers, \$2.75@3.85; proprietors is denied in Platt Bros. vs. cows, \$2.75@4.30; heifers, \$2.75@4.75; canners, Waterbury (Conn.) 48 L. R. A., 691, hold-\$2@2.65; bulls, \$2.75@4.40; calves, \$4@6.25; Texas ing that such damage is not merely consefed steers, \$4@4.90; Texas grass steers, \$3.25@4.10; quential but a direct appropriation of property rights, for which compensation is Hogs-Receipts, 16,000; Monday 33,000 estimated; required by the Constitution. A note to this case analyzes the decisions on the right of cities to drain sewage into waters, heavy, \$4.60@4.85; rough heavy, \$4.45@4.55; light, An injunction against the passage of an ordinance within the general power of the municipality, creating a contract between steady; good to choice wethers, \$3.85@4.10; fair a city and a street railway company. @4.10; Texas sheep, \$2.50@3.50; native lambs, \$4.25 is held, in State ex rel. Ross v. Superio @5.65; Western lambs, \$4.75@5.50. Receipts: Court (Wis.) 48 L. R. A., 819, to be void for want of jurisdiction, whether the ordinance is authorized by law or not. since its passage is a legislative act which

the court has no power to supervise. An assignable cause of action on a policy of indemnity against employer's liability for damages through injuries to employes is held, in Fenton v. Fidelity & C. Co. (Ore.) 48 L. R. A., 770, to arise as soon as the accident occurs, although the assured is insolvent and canot pay the claim against him, where the policy provides that the insurer shall have immediate notice of an accident and exclusive power to

settle and adjust the claim. A brakeman who jumps upon the caboose of a moving train on which he is not employed, for the purpose of looking for his clothing, which he had left in the caboose at the end of a former trip, and who jumps off when through with his search, s held, in Olson v. Minneapolis & St. L. R. Company (Minn.) 48 L. R. A. 796. not to be within the scope of his employment or within the scope of his license, if he had a license by custom to go back to the caboose after his clothing that he had left there. The annotation to this case shows the authorities on liability for injuries to a servant in performance of duties outside the scope of his original

contract. They Tell the Truth.

Republicans are not sharing in the campaign of falsification. The party has never believed in misrepresentation. It has nough good material in facts. All that is Eugene's Good Sense.
